

## GEN CAMPOS QUILTS FIGHTING CUBANS GIVES UP SPANISH CAPTAIN- GENERALSHIP.

It is Believed He Will Advise the Spanish Government to Grant a Measure of Home Rule to the Island—Insurgents Increasing in Strength Every Day.

Havana, Aug. 8.—A correspondent of the New York Herald says: Gen. Martinez Campos has resigned the captain generalship of Cuba. It is generally believed that he strongly urges the home government to grant the island of Cuba self-government.

As an outcome of his recent telegrams to Madrid, the ministers of war, state, foreign, colonies, etc., have been holding long conferences, and although they could not make public the subject of their deliberations, they have admitted that they will have some astounding revelations to make soon.

Gen. Martinez Campos, while besieged

## SILVER MEN TO MEET.

The Washington Conference Will Be of National Importance.

Washington, Aug. 13.—Senator Harris of Tennessee, who, with Senator Turpie of Indiana and Senator Jones of Arkansas, was appointed a committee at the Memphis free-silver convention in charge of the conference which will be held here on the 14th and 15th inst., is in the city making preparations for the gathering of the free-silverites. Senator Harris predicts that thirty states will be represented. The gathering is not intended to be important by reason of the large number of delegates, but Senator Harris claims that its results will be far-reaching and will have a strong influence upon legislation and future political conventions. He is reluctant to discuss important features of the conference of the meeting, which he expects to adopt ringing resolutions in favor of the free and unrestricted coinage of silver at the ratio of 16 to 1 and appoint committees to advance in every legitimate way the interest of the white metal.

NOT TO HANG BEFORE SPRING.

Taylor Allowed an Appeal—A Convict Declares Them Innocent.

Carrollton, Mo., Aug. 13.—Sheriff Stanley has received a letter from Albert B. Wilson, a convict, in which he declares that the Taylor brothers, just convicted of murdering the Meeks family, are not the murderers, but that the real murderers forced him to give them clothes to replace their bloody ones and then disappeared. His story is not believed. The convicted men, who were once among the wealthiest in the county, have presented affidavits that they are without the means to pay for the copying of their appeal, and it will be done at the expense of the state. Judge Rucker has granted a stay of execution pending the appeal, and the Taylors cannot now be hanged before next spring.

Miners and Owners to Confer.

Ishpeming, Mich., Aug. 13.—The striking miners of Ishpeming and Negaunee have finally decided to go to the mines to hear the propositions of the mine-owners and officials with reference to an increase in wages. It is generally thought that if the proposition of the companies is reasonable the men will accept them, as many of the strikers are tired of idleness, and besides they are now beginning to feel the need of money.

Agreement with Indians.

Washington, Aug. 13.—The acting secretary of the interior has approved an agreement made with the Southern Ute Indians of Colorado, whereby the majority of them will take lands in severalty and the rest of them be settled on the western third of the present reservation. After the severalty allotments have been made the remaining lands will be thrown open to settlement. The reservation contains over 1,000,000 acres, much of it arid and broken.

Three Killed by an Explosion.

Lexington, Ky., Aug. 13.—John Hines, his son Fred, and William Smith, a fireman, were killed in a boiler explosion at Clay Lick yesterday afternoon. A. J. Downs, a log man, was badly injured. Hines, who owned the mill, was blown into the air, and pieces of his body were found eighty yards away from the scene of the explosion.

New Party in Kansas.

Parsons, Kas., Aug. 13.—The independent American party, the latest political organization in Kansas, met in this city yesterday and nominated a county ticket. The new party believes in the free and unlimited coinage of American silver and America for Americans.

Heavy Wind in Pennsylvania.

Philadelphia, Pa., Aug. 13.—A furious storm swept over the eastern portion of this state yesterday. In Conshohocken, Montgomery county, twenty houses were unroofed. Fences were blown down and trees uprooted. Strange to say, nobody was injured.

## SEVENTY NIHILISTS CAUGHT AT ONCE

ODESSA RESTAURANT RAIDED  
THIS MORNING.

Place Had Been Watched Ever Since Plots On the Czar's Life Were Discovered, and a Swarm of Secret Society Members Were Corralled—Foreign News.

Odessa, Aug. 13.—The police captured seventy nihilists in a restaurant early this morning. The place has been watched ever since the plots on the czar's life were discovered some weeks ago.

Decision in the Elbe Case.

Bremerhaven, Aug. 13.—The admiralty court has rendered a decision in the inquiry made into the sinking of the North German Lloyd Steamship company's steamer Elbe, in collision with the British steamship Crathie in January last. The court holds that the blame for the collision must be attributed to the mate of the Crathie, who deserted his post immediately before the occurrence and went into the galley of the Crathie. Continuing, the findings say that the officer in charge of the Elbe can not, however, be freed from the reproach that he omitted to get out of the way of the Crathie by a timely manipulation of the helm and failed to attract the attention of the crew of the Crathie by signaling with the steam whistle.

Want Reprisals in China.

Tien-Tsin, China, Aug. 13.—A meeting of the foreign residents of this city was held here yesterday. It was decided to communicate by cable the necessity of immediate intervention in China upon behalf of the United States and British governments, and a telegram to that effect was, according to a resolution by the meeting, addressed to the Associated Press, as an expression of the sentiments of the foreign residents of Tien-Tsin as an appeal to the people of the United States for assistance.

Japanese Cabinet Crisis.

Yokohama, Japan, Aug. 13.—There is a cabinet crisis. Count Ito, the prime minister, was created a marquis without his knowledge. Feeling himself placed in a false position, he refused promotion, while certain of his colleagues remained unhonored. He has left the capital and will not return until the question is settled. Count Yamagata, the war minister, declines the title of marquis for similar reasons.

TRAMPS ATTACK A TRAIN.

Railroad Men Narrowly Escape Death at Their Hands.

Wilmington, Del., Aug. 13.—Another attempt to take possession of a freight train was made at Edgemoor by tramps last evening. Thirty-two hobos, returning from the peach country, attacked the crew of a northbound P. W. & B. freight just as it was leaving the cut-off above this city. The railroad men gave battle but were repulsed and compelled to seek shelter in the cars. When the conflict was at its height, notification was sent to this city and aid requested of the police department. Before a squad of officers could be dispatched, however, the trainmen were reinforced and the tramps compelled to retreat.

Threatened Lynching at Morrison.

Morrison, Ill., Aug. 13.—July 31 a negro entered the residence of Henry Henricks, near Stirling, and demanded something to eat. Mrs. Henricks, who speaks but little English, complied with his request. After he had eaten, finding that Mrs. Henricks was alone, he attacked her. He was arrested later and lodged in jail here. Last night about 200 Germans from the eastern part of the county assembled at the jail and made loud demands for the prisoner, but seeing the resolute stand taken by the sheriff and his officers dispersed about 11:30 o'clock.

Plundered by Road Agents.

Oregon City, Ore., Aug. 13.—Word comes from Willhoit Springs that the stage which left Oregon City yesterday morning was held up by two masked men at Wright's bridge. The robbers appeared at the roadside and with their Winchester leveled on the driver compelled him to stop. The road agents compelled the passengers to get out of the stage and line up, and while one man stood guard the other searched the passengers and took what money and jewelry they had. The exact amount of plunder is not known. The same stage was held up about a month ago.

Iowa Knights of Pythias Meet.

Marshalltown, Ia., Aug. 13.—This city is now in full possession of the Uniform Rank, Knights of Pythias of Iowa and presents a military and gala appearance. Over 600 uniformed knights are now encamped and every train adds its quota. Delegates to the grand lodge and the Rathbone Sisters' Conclave are also arriving in large numbers. The camp is called Camp Van Valkenburg in honor of the deceased Grand Chancellor of that name. Nearly all the brigade regimental and divisional officers and their staffs are present.

Storm sweeps Connecticut.

New Haven, Conn., Aug. 13.—Many portions of this state were visited by a severe thunder and lightning storm early yesterday morning. In this city the storm was the most severe of the season. At Branchville, William Eyley was killed instantly, and his wife, who was lying beside him in bed, was rendered unconscious for several hours.

National Turners in Session.

Indianapolis, Ind., Aug. 13.—Thirty-five of the leading turnverein societies located in the principal cities in this country are represented at the fourteenth annual convention of the physical directors in the Socialist Turnverein.

## CARS UP IN THE AIR BADLY WRECKED

NEW YORK ELEVATED TRAIN  
HITS A BUMPER.

Seven People Injured, One Seriously—Crash Heard Far Down Third Avenue—Possibly Four More Were Killed in the Bainbridge Affair—Debris Not Yet Cleared Away.

New York, Aug. 13.—Third avenue elevated train became unmanageable this morning and crashed into a bumper post, injuring seven, one seriously. The scene of confusion on the line was without precedent. The crash was heard far down the street.

Jackson O., Aug. 13.—Hundreds of excursionists yesterday visited the scene of the wreck on the Ohio Southern railway at Bainbridge, where an engine and thirty cars went through the Paint creek bridge Sunday, killing all on board and leaving none to tell the story. Besides the four trainmen who were killed it is believed now that four tramps and three boys who are missing from Greenfield are under the wreck. As the debris is in over twenty feet of water little has been done in clearing it away. No more bodies have been recovered. The dam below the bridge has been cut open and divers have been engaged. A Sunday excursion with over 400 people passed safely over the bridge ahead of the freight.

Investigating the New York Wreck.

New York, Aug. 13.—An investigation into the causes of the wreck of the Broadway building in which so many men lost their lives was begun yesterday by Building Superintendent Constable. The superintendent called a meeting of thirty building experts and architects in the building, and said he would leave no stone unturned to bring the guilty person or persons to justice if criminal negligence could be shown. The experts took a superficial view of the ruins, and will make a more minute inspection to-day.

A. P. A. BOARD DEMAND POSSESSION

New Omaha Commissioners Will Use Force—Give Until Wednesday to Submit.

Omaha, Neb., Aug. 13.—It now looks as if a conflict was inevitable between the old Omaha police force and the faction which claims authority under a recent law to appoint a new police force. Sunday night indications were that a compromise was probable, but the efforts of citizens who deplore the present strife to persuade the new board to submit the controversy to the Supreme Court were of no avail. The new board appointed their force last night, and assert that they will take possession of the city property by force Wednesday. It was said unofficially that those of the present policemen and firemen who did not notify the new board by Wednesday morning that they would hold themselves subject to the orders of the new board would receive little consideration when the new board commenced to discharge the duties of the office.

The police headquarters resembled a barracks yesterday. The door leading from the office into the police court and the door opening out into Jackson street from the captain's office have been locked and braced with timbers so that neither of them could be forced without the use of a sledge hammer. This leaves only two entrances to the office and cells. An assaulting party would have to come by one of these two entrances and when they attempted this twenty-five policemen would be on hand to give them a warm reception. The police are armed with their clubs and short handles, such as are used in pickaxes, and everyone of them has a revolver. There are only fifteen patrolmen doing duty on the streets of the city, the rest of the regular day force and some from the dog watch being used to protect the headquarters and the city hall. The police spend their time at the headquarters in sleeping and looking over the situation.

Captain Mosley said he did not anticipate any trouble, but that it was deemed advisable to keep a force about the headquarters as a protection in case of an effort to take possession. The men will be kept on guard until the commission muddle is settled.

The statement has been made that a quantity of arms and ammunition has been stored in the city hall, as well as the headquarters, to be used by the men. This is denied by the officers. They say the regulation revolvers carried by the patrolmen would be sufficient in case firearms were needed.

The force of specials has been released, and it is understood the men will not be re-employed unless the situation becomes more threatening than it is at present.

The police report that there have been no disturbances of any kind, and that there is no more reason to expect an attacking party now than there was a few weeks ago, except that some of the adherents of the new board claim that Judge Hopewell's decision places the new board in possession of the department, and it is expected the board will demand possession of the headquarters, the office of the fire and police alarm superintendent and operators and the chief of police's office. Then there may be trouble.

Hold Up a Gambling House.

Leadville, Col., Aug. 13.—The two masked men who secured the rich gold ore from the Gordon mines Saturday night raided Gibbons' saloon at Stringtown, Col., last night. Three men in the saloon were relieved of sums of money ranging from \$50 to \$150 each. The robbers then cleared the money off the gaming tables and secured several hundred dollars. One man, Anthony Steve, resisted and was shot at.

SENATOR HOAR ON THE A. P. A.

Thinks the Movement Calculated to Solidify and Antagonize Catholics.

Worcester, Mass., Aug. 13.—Senator Hoar has written an open letter upon the A. P. A. to Thomas C. Evans of Boston in response to a letter from the latter expressing surprise at statements made by the senator in a speech that it (the A. P. A. movement) is an attempt to recall, on one side, the cruelties of the Catholic church and to frighten old women of both sexes; and on the other side, to band the men of the Catholic church together for political action. Senator Hoar writes in part as follows:

"The difference between you and me is a difference of method. I want to get 700,000 Catholics in Massachusetts on our side. I want them to send their children to the public schools, to pay their share of the cost, and when their young men and young women are suitable, are intelligent, liberal persons, attached to the school system, I want some of them to be employed as teachers. I don't wish to exclude them from my political support, when they are republicans and agree with me in other matters, because of their religious faith. I think your method would overthrow the common school system, would overthrow the republican party, and would end by massing together all the Catholic voters, as proscription always does, mass men together, to increase and strengthen that political power which you profess so much to dread."

THE GOLD RESERVE.

\$1,650,000 Withdrawn Yesterday for Shipment to Europe.

Washington, Aug. 13.—The treasury yesterday lost \$1,650,000 in gold export to Europe, leaving the reserve only about \$1,300,000 above the \$100,000,000 point. The telegram which announced the withdrawal reached the department just as it was closing at 4 o'clock, and gave no further information as to the name of the exporter, or of the exact destination of the shipment. Mr. Curtis, the acting secretary, said he had nothing to say in regard to the matter. He had no specific information, and could not say whether the syndicate would allow the \$100,000,000 to be encroached upon or not. None of the other officials would talk in the absence of Secretary Carlisle.

Trinidad Doesn't Belong to Us.

Washington, Aug. 13.—The archives of the state department have been searched to see if there was anything in the claim put forth that the United States, as the conqueror of the confederate states, had any claim to the island of Trinidad, over which there is now a dispute between Great Britain and Brazil. Nothing of the kind could be found and it is not believed at the department that there is anything in the claim. An official of the department, who has been looking into the matter, says there is little doubt that the island belongs to Brazil.

Columbia and Olympia to Race.

San Francisco, Cal., Aug. 13.—The navy department has evidently determined to ascertain if the Columbia is the fastest of American warships and has assigned the honor of competition to the cruiser Olympia. The Olympia will soon go to join the Asiatic squadron and the department has ordered that she shall try to make an ocean record as far as Honolulu at least and possibly across the Pacific. Local naval officers interpret the order to mean that the government wishes to break the world's record made by the Columbia recently, when an average speed of over eighteen knots an hour was made from Southampton to New York.

Mammoth Irrigation Scheme.

San Francisco, Aug. 13.—A local paper says a number of Eastern capitalists are in this city at work on a scheme to reclaim the Colorado desert by turning the waters of the Colorado river over the vast territory. The company also has a grant of 1,500,000 acres in Mexico that it will irrigate. As an indication of the good faith of the promoters they are said to have handed the Southern Pacific a check for \$1,500,000 in return for its title to the alternate sections of land in the Salton basin. The land turned over amounted to about 600,000 acres. Principally Eastern capitalists are behind the scheme.

All Quiet at Jackson's Hole.

Washington, Aug. 13.—Gen. Vincent yesterday received the following telegram from Gen. Coppinger dated Jackson's Hole, Aug. 11. It has been forwarded 125 miles by courier: "Col. Randall with Lieut. Hamilton and scouting party picked up Lemhi Pete and party, seventeen Indians all told, male and female, with sixteen ponies hunting peacefully in Teton mountains. Started them home for Lemhi reservation yesterday. Scouting party in from the north. All quiet."

To Investigate the Asylum Barbarities

Chicago, Aug. 13.—Everything possible is being done by the county authorities to bring the murderers of George Puck, who was killed at the burning insane asylum by attendants, to justice, and the matter will be taken up at a meeting of the County Board this afternoon if a quorum of that body can be got together. A call was issued yesterday for a special meeting at 2 p. m. to-day to consider the Dunning murder in particular and abuses at the Dunning Asylum for the Insane in general.

Joliet, Ill., Aug. 13.—The disastrous fire in Lockport proved a big loss to the property owners and merchants in that city. The loss is over \$200,000, with insurance of about \$100,000.

## HE SEES \$1,000,000 SLIP OUT OF REACH

HOOE HECIS' LAND CASE ENDED  
IN MADISON.

Judge Bunn Decides That Suit Cannot Be Begun in the United States Court and Meantime the Statute of Limitation Has Come Into Play.

Madison, Aug. 13.—This morning Judge Bunn, of the federal court, dismissed the case of Hooe Hecis, claiming \$1,000,000 of property in Madison, Cross Plains, Poynette, and other places, on the ground that Hecis was not entitled to sue in the federal courts as are residents of Washington, D. C. This settles the case without passing on its merits in any way, as a new case cannot be begun, the statute of limitation having now run.

FIRE ON OFFICERS.

Ill Feeling Between Whites and Blacks at Winston, N. C.

Winston, N. C., Aug. 13.—A serious riot between whites and blacks was narrowly averted here last night. It was given out in colored churches during the day that an attempt was going to be made to lynch Arthur Tuttle, a negro on trial here for the murder of Policeman Vickers last May. After church about one hundred and fifty negroes organized and marched to the jail, where they remained for several hours. They were armed with pistols and guns. Mayor Gray went to the jail and assured the negroes there was no danger of lynching and begged them to disperse. Sheriff McArthur and two of Winston's lawyers also addressed the negroes. Judge Brown, who is holding court, notified the negroes that they were violating the law, promised them that Tuttle should have a fair trial and that he would be responsible for the prisoner's protection.

The negroes said they would leave if the sheriff would put a guard of twenty men around the jail. This was done, but many of the mob refused to go away. Sheriff McArthur then ordered out the Forsyth riflemen, besides a number of deputies who were sworn in. Judge Brown also instructed the sheriff to arrest those who did not leave. The mob began firing on the officers, several of whom were struck with small bird-shot, but none seriously wounded. The riflemen fired several volleys into the crowd, causing the negroes to disperse in quick order. Fourteen of the rioters were arrested and put in jail. Everything is now quiet.

Follows Murder with Suicide.

Cleveland, Ohio, Aug. 13.—The dead body of August Schissler, aged 60 years, was found hanging from a tree in the woods near his home in the outskirts of the city about noon yesterday. Saturday night Schissler's wife was found lying unconscious. She had three ugly gashes on the head and her skull was fractured. Schissler had quarreled with his wife and struck her with a blunt instrument. Thinking her dead he committed suicide. Mrs. Schissler is still unconscious.

Double Murder in Tennessee.

Trimble, Tenn., Aug. 13.—A terrible double murder occurred near Dyer's station yesterday. Pleas Thompson, a negro, who was employed with a wheat thrasher, pushed rudely against Richard Dennis, one of the white employees, whereupon the latter knocked the negro down, pulled out his knife, jumped upon him and literally cut him to pieces. Upon observing the fate of the son the father of the murdered negro jerked up a pitchfork and ran it through the white man, killing him almost instantly.

Fraker Insurance Paid.

Kansas City, Mo., Aug. 13.—The long fight between the insurance companies which carried policies on the life of Dr. G. W. Fraker and the beneficiaries of Fraker were terminated yesterday afternoon when the last of Fraker's insurance was paid. The amount paid was \$32,474.94. The case is as much of a mystery as it was two years ago, and, though the officers of the insurance companies and very many other people do not believe that Dr. Fraker is dead, the United States courts have decided that he is, and as they can not find him alive the companies can do nothing but obey the order of the court.

Chased by a Mob.

Cincinnati, Ohio, Aug. 13.—Sunday Thomas Jones, colored, and James Daley, white, met at the room of Mary Conley, white, and Daley drove Jones away. Yesterday Jones went back with another negro, Henry Williams, and attacked Daley and fatally stabbed him. He and Williams then ran out, but officers caught Jones, and a mob of 300 people took after Williams. While running Williams grabbed bricks, which he hurled back into the crowd. At the depot fully 2,000 people surrounded him and a brakeman knocked him down with a bowlder. The officers had to show pistols to keep the crowd back.

Canning Factory Explosion.

Longmont, Colo., Aug. 13.—A terrific explosion occurred yesterday afternoon at the Empson canning factory, in which five men and one woman were injured. One of the steam vats used for boiling peas exploded while the factory was in full blast. Seven men escaped only by a miracle.

Shoots His Employer's Wife.

Shelby, Iowa, Aug. 13.—Herman Kohanp, a young German, last night blew out the brains of Mrs. William Kruger, wife of his employer, and then committed suicide by cutting his throat. No cause for the tragedy is known.

Ex-Justice Strong Is Better.

Lake Minnewaska, N. Y., Aug. 13.—Ex-Justice Strong's condition has improved. The catarrhal fever is abating. He takes nourishment with less difficulty, is free from pain, and is now conscious.

MARSHAL DE CAMPOS.

In Bayamo, had such fear for his life that in order to disguise himself he had his long goatee shaved off, hence his objection to showing himself in public. Mayari is said to have fallen into the hands of the insurgent forces, and the provisional government of Cuban republic is reported to have been established there. Santo Espiritu and Trinidad, in Las Villas, are said to be in possession of the rebel forces. It is rumored that Gen. Martinez Campos will leave for Spain soon, as he wants to give a personal account of the state of affairs in Cuba to the queen and court.

## INSURGENTS INCREASING.

Situation Very Grave in the Province of Santiago de Cuba.

London, Aug. 13.—The Times publishes a dispatch from Havana, dated Aug. 7, which says that Gen. Moreno has assumed the chief command of the troops in the province of Santiago de Cuba. The insurgents are increasing in the province of Matanzas. The force of 1,360 officers and men of local volunteers from Havana, which has been drawn for active service, causes the impression that the situation is more grave. The suppression of the news encourages the wildest rumors adverse to Spain.

The recent Madrid appointments, giving all the posts in Cuba to Spaniards, is criticised as proof that Spain is determined not to allow Cubans any share in the administration. The appointment of Cabezas as director of finance is especially deprecated.

War News Favors Spain.

Havana, Aug. 13.—The insurgent band commanded by Rego recently besieged the town of Ingavilanto, in the province of Santa Clara, and sent a demand for the surrender of Spanish troops detailed to defend that place. The garrison, however, refused to surrender, and the insurgents burned a house in the immediate vicinity of the barracks. The soldiers made a gallant defense, and eventually compelled the insurgents to retire with a loss of five killed, among the latter being a captain, who was Rego's aid-de-camp, and leaving ten wounded behind them.

Mexico May Annex Cuba.

City of Mexico, Aug. 13.—Favorable utterances of leading American papers regarding the annexation of Cuba to Mexico are attracting attention here and newspapers are reproducing the sentiments of the American press. Annexation would be preferred by Spain to selling Cuba to the United States and Mexicans would welcome Cubans to their union.

Comparison of Exports.

Washington, Aug. 13.—A statement prepared by the bureau of statistics of the treasury department gives the amounts of the principal articles exported during the month of May as follows: Mineral oils, \$4,992,903; July last year, \$2,985,792. Cotton, \$1,918,179; July last year, \$3,121,959. Breadstuffs, \$3,500,913; last year, \$3,138,593. Provisions, \$14,024,688, as against \$14,785,755 during July 1894.

Double Tragedy Due to Jealousy.

Corsicana, Tex., Aug. 13.—Albert Coleman, after firing the contents of a double-barreled shotgun into Ella Davis' person, walked up the principal street in search of and found Scott Scott Davis, his rival. Without a word of warning Coleman fired both barrels of the gun into Davis' breast, killing him instantly. Coleman is in jail. Miss Davis cannot live.

## THE OLD HOSE TEAM PUT ON THE MARKET

CITY TO SELL A SPAN OF FIRE  
DEPARTMENT HORSES.

**Aldermen Voted In Favor of the Move  
Last Night—East Milwaukee  
Street Sewer Assents Itself Again—  
Council to Meet Again Tomorrow  
Night to Adopt Ordinances.**

Last night's session of the common council was a short one and the selling of the fire department team and discussion about the order from the Milwaukee street sewer was the only business aside from routine matters.

All the aldermen were present except Alderman Heddles when Mayor Baines' gavel fell. After the minutes had been read and approved the reports of the city treasurer, the municipal judge and weed commissioner, Clement Noyes were presented all of which were received and filed while Mr. Noyes' bill was referred to the finance committee and afterwards approved. A petition for an electric light at the corner of William and Glen street, was referred to the gas light committee, who asked further time. A petition for the grading of Fourth avenue also was read and referred to the alderman of the second ward, who reported in favor of referring it to a committee, so Mayor Baines put it in charge of the highway committee.

Chairman Hemming of the finance committee reported in favor of selling a number of bills which report was adopted. Chairman Smith of the judiciary committee reported the report of the municipal judge as correct and on his motion it was adopted.

To Sell a Team of Horses.

Chairman McLean of the fire and water committee reported in favor of selling the extra team in the fire department which he claimed were "eating their heads off." Alderman Winslow thought they should not be sold at the present state of the horse market. Alderman McLean said he didn't believe in keeping horses that were of no use. Alderman Smith thought if they were of any use it would be better to keep them; otherwise he wanted them sold. Alderman Burnham said one of them had been in service constantly, and he didn't favor selling them both. Alderman McLean's motion was then adopted, and the committee will sell the team.

Alderman Burnham, of the sewerage committee, said that there was much complaint in regard to the smell from the sewer on Milwaukee street, the repairs on which had not been entirely satisfactory, and stated he desired some orders from the council. Alderman Inman favored putting sewer traps on the openings, and thought that would stop the smell. Alderman Burnham thought the parties owning the sewer ought to put the traps in; and after some time further time was granted the committee. Alderman Burnham also stated that City Attorney McElroy had promised to have some ordinances ready to introduce, but he was out of the city and would be home today. He moved that when the council adjourn it be to tomorrow evening at 8 o'clock. Adopted.

Many Orders Introduced.

Alderman Kothman—An order to repair streets as follows: High from Pleasant to North, clean the gutters in the Fourth ward, and build block crosswalks across Academy, on north side of Center; across Holmes on east side of Locust; across Holmes on west side of Locust; across Lincoln on south side of School.

Alderman Smith—To repair Washington street, between Pleasant and Bluff; and build a block cross walk across Wall on the east side of Washington.

By Alderman Winslow—To notify property owners on the South side of South Second street from South Main street street to F. F. Stevens' property to build new sidewalk; to clean the gutters around the court house park; make the cross walk at the corner of South Third and Bluff streets to correspond with the walks; remove the gas lamp post at the corner of south Third and South Bluff street; fix the sewer pipe at the corner of South Third and South Bluff, and South Bluff and Oakland avenue. Also granting to Nowlan & Peters, the use of part Court street for building material.

More Crosswalks Ordered.

JOHN ALLEN FOUND PEAT HERE

Janesville Folks Couldn't Burn It in Their American Stoves.

John W. Allen's death recalls his discovery that Rock river's banks are lined with a bed of peat two feet thick. He saw in the conditions here a counterpart of those he had known so well in Ireland, and made a careful investigation. Peat was found in liberal quantities, but nobody could be induced to use it. American grates and stoves were not of the right pattern.

John Allen's name was also identified with another circumstance—the removing of the bodies from the village cemetery, now the Third ward school yard.

OLD RESIDENT OF LIMA DEAD.

Franklin B. Anderson Passed Away in The Soldiers Home—Village News.

Lima, August 13.—Franklin B. Anderson, aged nearly fifty-three years, died Tuesday August 6. He was born August 13, 1842, in Madison County, New York, and lived there until the war broke out when he enlisted in the Thirty-Third regiment Co. E. After his discharge he came to Lima Center where he resided until about three years ago when on account of poor health he entered the Home for Soldiers at Waupaca at which place he died. On July 18, 1868, he was married to Miss Sarah Phillips, who survives him. Three sisters and a brother are also left to mourn his loss. GREAT THRONG ON A SPECIAL.

One Thousand People From Points Along the C. & N. W. Bound For Devil's Lake. Janesville never before saw as big a "special" as pulled in over the C. & N. W. this morning. One thousand people were jammed into seventeen cars. Two great ten wheel "hog" engines panted desperately in starting it for Devil's Lake. The special started from Edison Park at 6:45 and was due at Devil's Lake at 11:05, but it was 10:05 when Janesville was reached. At Harvard three extra coaches had been hooked on to relieve the suffocating crush, and in Janesville two sections were made, Engineer L. Moran of this city, taking one and Engineer J. Welch of Baraboo the other. Every platform was jammed and the cars were full to overflowing when the trains pulled out.

BRIEF BITS OF LOCAL.

The advance sale of tickets for the limited excursion to the romantic Delta of the Wisconsin over the Chicago, Milwaukee & St. Paul Railway, Tuesday, August 15th, is evidence that Janesville lads and lasses are going in large numbers and it is probable that the Steamer Dell Queen will contain all Janesville young folk while the other steamer will carry Rockford and Beloit contingents.

We don't deal in luxuries. You must have clothing, every person uses wearing apparel, our sale this week of summer clothing both in men's and boy's goods is of great interest to you, why let the opportunity pass? We give you more for your large dollar than you usually get. Think it over then come and see us. Frank H. Baack.

This week is the stem winder in summer clothing. We offer every summer suit in the house at cost; thirty men's suits that are the greatest bargains you ever saw, and all the boys' and children's suits we have. This is no joke; you can prove the honesty of our assertions easily. All we wish is for you to come and examine the stock and ask questions. Frank H. Baack.

We are making prices on all summer goods in order to close out and make room for our large fall stock. This will be our first fall season in our new quarters, and we propose to put in the most select stock of dry goods ever opened in this city. Come to us for bargains in summer goods. Bort, Bailey & Co.

We name them record breakers and they broke the record. No firm in the county gives such good value in \$2, \$2.50 and \$3 as we do, even if they advertise to sell at 50 cents on the dollar of factory cost. Brown Bros. & Lincoln.

THE railroads are running trains at reduced rates to the Scotch games on Friday, and the prospects are that the largest gathering of the season will be here that day. The program of events is a most attractive one.

Good for that tired feeling, our shoes at the reduced prices we are making. Former figures slashed into halves, 50 cents on the dollar is the result, any shoe in the house goes at the price. Becker & Woodruff.

OUR stock of summer goods must be cleaned up. We are making prices to do it. You know when we make prices that those prices are always the lowest. Bort, Bailey & Co.

We have figured you for this sale of summer clothing. Its your turn now. Cost prices adorn the tags on ever summer suit. Frank H. Baack.

We have many good things left in that line of 48-cent silks, but how long we will have is a great question. Bort, Bailey & Co.

GENT's regular \$2 shoes go this week at \$1.50. Better catch on to that, boys. Lloyd & Son.

REMEMBER everything in tan shoes goes at way below cost. Lloyd & Son.

COME to our store. We can save you some money. Lloyd & Son.

Clouds to Hide the Sun.

Max. .89 above  
Min. .57 above  
Wind south.

Now For the Scotch Games.

The Scotch games on Friday will take the place of the circus this year. A splendid program of great length and variety has been prepared, including an assault-at-arms between two of the greatest fencing ladies in the world. Don't fail to attend.

Beautiful Dishes.

Came this morning new and pretty designs in dishes. Sets complete from \$3 to \$13. Lowell's Annex.

## NOT A MAN INSIDE THE GUARD HOUSE

JANESVILLE SOLDIERS ARE  
KEEPING GOOD ORDER.

Today Company A. Is On the Range—C. H. Gage Appointed Statistical Clerk—Bower City Quartermaster and Cook Win the Admiration of All In Camp.

Camp Douglas, Wis., August 13.—The first battalion commanded by Major Joachim were on the range shooting all day and the second commanded by Major Stearns had battalion drill, riot drill and extending order. Considering this as first day of regular duty everything passed off very well. After dress parade this evening the troops were reviewed by General King.

Co. A's men are all well and no sickness has been yet reported.

Corporal Cannon is corporal of the guard today.

Private Huie has been detailed on the signal corps, and Engelbreten on hospital duty.

Two of our sergeants were caught writing home to their sweethearts.

The baths are open to all the militia Tuesday, Thursday and Saturday. The regulars use them the rest of the time.

Private Church had Surgeon Evans attempt to pull a tooth, but after he had broken it several times, gave it up, and consequently has a sore mouth.

Captain Anderson, of Co. H, Fourth regiment, was our guest at supper.

Our cook is the best in camp, and our quartermaster received many compliments on the watermelons he served for dinner.

Not one of our company has been sent to the guard house as yet; a strange thing for us.

Seven muskies fed on Sergeant Zander's nose on parade, this evening, but he never moved a muscle.

Co. A has the tallest man in camp; Private McDowell stands six feet, five inches high and is straight as a post.

Private Gage is statistical clerk at the range house.

Captain Gibson is strictly enforcing the rules regarding rifle practice.

Private Root expects to lead all competitors on the range.

Ed. Bauman received his appointment as sergeant-major of the Second battalion, this evening.

Phillip Spinner, a private of troop B, seventh cavalry: U. S. A. committed suicide by shooting himself through the heart this morning. He has been dissipating of late and was under arrest at the time. His remains were shipped to Fort Sheridan and were escorted to the station by troop 13 and a detachment from the battery. Spinner was a member of General Custers command and had served in the company over twenty-eight years.

C. L. HANSON.

CARS FLOORED WITH DEAD CALVES

Overcrowding of Live Stock Results in Serious Losses to Buyers.

Heat and overcrowding killed many calves in the stock train that left Janesville for Chicago last night. The stock came from Green county and had been jammed too tight. Calves, sheep, hogs and cattle were mingled, and the calves being weak and light, were trampled and overcome.

"Stock men are responsible for this," said a railroad man. "They charter the cars and try to get as much stock in as possible, but it seems as if the loss from dead stock that is only salable for scrap, would more than offset this gain on freight."

For Sale Cheap.

MUTUAL LIFE  
ASSOCIATION

Of Galesburg, Illinois.

The members are to be congratulated upon the magnificent accomplishment of building up an association consisting of over 46,000 persons with over one hundred millions of dollars of insurance in force, and should be encouraged to give it that loyal support which can with prudent, economical and efficient management, greatly increase its size and usefulness, and give it a like measure of success in the future."

 1868—Beginning of an earthquake in Central America which within two days destroyed four cities and the fleets along the entire coast; deaths computed at 40,000.  
 1877—Chauncey Rose, pioneer merchant and philanthropist, died in Terre Haute; born in England.  
 1888—Von Moltke retired from the head of the German army.  
 1893—Fire destroyed 200 houses, besides mills and lumber yards in Milwaukee; loss, \$2,000,000.

## A BUSY CANAL

People who think the deep water way commission is a sinecure should read the figures. Wisconsin has millions to gain in improving water communication with the sea-board. Even now the business passing through the canal at the Soo is increasing at a prodigious rate, the freight tonnage for the month of July having reached a total of 2,477,000 which goes ahead of any previous month's tonnage by 187,000. The aggregate for this year is a million tons more than that of 1894. The Soo canal now carries a great deal more freight in six months than the Suez canal does in twelve, and at the present rate of increase the Suez will be completely distanced in a few years. Another point to be considered in this relation is the rapid development of water transportation.

## HILL AND WHITNEY.

David R. Hill's indorsement of Morrison for president sounds like a shrewd attempt to head off any boom which may be started for Whitney. Although Whitney has not taken part in any of the recent squabbles in New York democratic politics, he is always classed with the Cleveland faction. He was considered a Cleveland man even while he was a member of Tammany, and, as Hill and his rabid supporters drew the line, a man who is for Cleveland must necessarily be against Hill. Hill remembers Whitney's shrewd maneuvering in Chicago three years ago and prefers to disable his foe this time before the battle field is reached.

## VETERANS GOING SOUTH.

Next month the Grand Army goes to Louisville. This first meeting of the veterans on southern soil cannot fail to exert a wholesome influence upon sentiment north and south. The meeting and mingling of the blue and gray in cordial fraternization will go far to obliterate whatever sectional feeling may still exist on either side, and to strengthen the sentiment of patriotism and loyalty to the union and the flag which all profess. Every union veteran who can find it possible to attend this encampment should do so, for there is every reason to expect that there will be a most interesting, enjoyable and memorable occasion.

## A CHERISHING OUTLOOK.

The business situation continues to be promising. The "Iron Age" says "the conviction is gaining ground throughout the iron trade that the present level of prices is not going to hold its own, but that even better figures are bound to rule." This, of course, means a further increase in demand, for the supply is steadily and rapidly expanding. In the other great industries the outlook is the same. The crop conditions also remain encouraging and good crops will bring to the farmer the prosperity which comes to the other workers from the growth in general business.

Undoubtedly a large majority of the American people would sustain the government in recognizing the Cuban insurgents as belligerents, however slight their claims, but in such a matter the government cannot consider popular sympathy and must be guided only by the requirements of international law and the settled precedents.

The silver question is causing a split in the ranks of the Iowa democracy. The 16 to 1 men, who are in the minority, are bolting in several counties. This is of no consequence to either republicans or democrats, however, for even if the democracy were united it could not win this year.

The strongest democratic candidate for president next year will be some man who has lived in a cyclone cellar for three years and not mixed in any of the administration's schemes.

It is about time for the bicycle riders to make an active and united effort

for the improvement of our country roads. The number of wheelmen and wheelwomen has increased at such a rapid rate that they ought to be able to get what they want.

## WHITTIER'S FIRST POETRY.

One Boyish Poem Gained Him Garrison's Friendship.

After he had made the acquaintance of Burns' poems, Whittier began to scribble rhymes of his own on his slate at school, and in the evening about the family hearth. One of his boyish stanzas lingered in the memory of an elder sister:

And must I always swing the flail,  
 And help to fill the milking-pail?  
 I wish to go away to school,  
 I do not wish to be a fool.

With practice, he began to be bolder, and he wrote copies of verses on every-day events, and also little ballads. One of these, written when he was seventeen, his eldest sister liked so well that she sent it to the weekly paper of Newburyport, the Free Press, then recently started by William Lloyd Garrison.

She did this without telling her brother, and no one was more surprised then he when he opened the paper and found his own verses in "The Poets' Corner."

He was aiding his father to mend a stone wall by the roadside as the postman passed on horseback and tossed the paper to the young man. "His heart stood still a moment when he saw his own verses," says a biographer. "Such delight as his comes only once in the lifetime of any aspirant to literary fame. His father at last called to him to put up the paper and keep at work." The editor of the Free Press was only three years older than the poet, although far more mature. He did more for the young man than merely print these boyish verses, for he went to Whittier's father and urged the need of giving the youth a little better education. To do this was not possible then; but two years later, when Whittier was nineteen, an academy was started at Haverhill, and here he attended, even writing a few stanzas to be sung at the opening exercises. He studied at Haverhill for two terms, and by making slippers, by keeping books, and by teaching school, he earned the little money needed to pay his way. At Haverhill he was able to read the works of many authors hitherto unknown to him, and he also wrote for the local papers much prose and verse.—Ex.

## TOOTHBRUSH FOR A PRESENT.

Permissible Now That Mrs. Cleveland Has Set the Example.

Mrs. Cleveland and Mrs. Richard Watson Gilder are fast and firm friends. They are so intimate, indeed, that they call each other by their Christian names, says the New York Recorder. When Mrs. Gilder was about to go abroad Mrs. Cleveland expressed deep regret at the parting, which would necessarily be long, and said that she would be pleased if Mrs. Gilder would accept from her a souvenir of her affection. Mrs. Gilder would be pleased, of course, to receive from Mrs. Cleveland any souvenir of affection. Mrs. Cleveland said the souvenir would not be very expensive, because she could not afford any rich and costly gift, but that it would be something real nice, and worth keeping, and such a gift as would bring Mrs. Cleveland constantly to the mind of Mrs. Gilder. On the day of her departure Mrs. Gilder received an elaborately tied-up package, which she opened with instinctive apprehension that it was the beautiful and appropriate souvenir from Mrs. Cleveland. She was not mistaken. On opening the box she discovered that it contained a silver toothbrush. Rather a queer sort of souvenir, but certainly one that would bring Mrs. Cleveland frequently to the mind of Mrs. Gilder if the latter should make practical use of the gift.

## Large Game in Maine.

Those who have recently returned from fishing expeditions at the headwaters of some of the rivers of Maine report that large game was seen in greater numbers than for many years past. While this is very encouraging news there appears to be an impression that many of those who visited the remote portions of Maine at this season of the year ostensibly for the purpose of angling do not confine themselves exclusively to that pursuit. It is reported that on the trail of some of these explorers there have been found evidences of the most reckless slaughter of deer and even moose. Mr. Jonathan Darling, one of the famous Maine guides, who has recently returned from the wilds of Maine, reports plenty of signs of "bad hunters." Mr. Darling intimates that the wicked City of Bangor is the headquarters for these unprincipled violators of the game law.—New York Sun.

## GIRL HELD CAPTIVE ON A DARK ISLAND

GUY NICHOLS ARRESTED BY AN ANGRY FATHER.

E. Cone Claimed that Nichols Had Kept His Daughter, Jane, Aged 15, Out All Night So He Collared and Marched Him to Jail—Other City News.

STOLE A GIRL—"This young man took my daughter Josie, over to the island in the river near the Jackson street bridge, and kept her there all night," said E. Cone, the house mover as he turned Guy Nicholas, aged twenty-one over to Chief of Police Acheson, at 7:30 this morning. "I want to have him arrested," Nicholas was soon locked up and Mr. Cone told his story to Clerk Williams of the municipal court, and affixed his signature to a complaint charging Nichols with assault. Mr. Cone says that Nichols took his daughter who is about fifteen years old, for a boat ride last night and landing her on the island, refused to allow her to leave. When the girl did not come home, her parents, who live at 99 Western avenue, became alarmed and instituted a search for her. They were not successful however, and this morning Mr. Cone secured a boat and rowed to the island where he found the girl with young Nichols. Cone took his daughter home and then marched Nichols to town with his hands tied behind him and turned him over to the police.

We had a tremendously large stock of shoes when we reduce prices along the line to half and still have a good assortment. 50 cents on the dollar are popular prices. Becker & Woodruff.

WRECKED WHEEL—There is one young man who is sorry he ever brought his bicycle to this town. He arrived on the mid night train last evening, and while the baggage man was unloading his wheel from the car, a four hundred pound trunk fell on it and you know the rest.

Big prices are certainly barriers to large sales. By shaving off the sharp edges of our selling figures, and yet maintaining the standard of our goods, we have struck a responsive chord in the heart of nearly every dry goods buyer in Rock county. Bort, Bailey & Co.

We know you are interested in buying to the best advantage. You are not too firmly wedded to any store that you cannot look at goods elsewhere. All we want is a little of your attention; just a little. Your good judgment will do the rest. Bort, Bailey & Co.

If the old one is worn out and looks shabby, or if you have grown tired of it or even if you don't care to buy a watch chain, but do enjoy seeing a big lot of pretty ones, step in and let A. F. Hall & Co., "the reliable jewellers," show you their stock of chains.

OUR shoe stock is made up of the kind of shoes you all want to buy. That's the reason we have them. We know the prices you like, and for that reason we made them. Becker & Woodruff.

## A LAW SUIT BEGUN OVER ROAD WORK

JOHNSTOWN GUTTERS WERE CUT DOWN TOO DEEP.

John O'Malley Claimed That He Would Have to Bridge 'Em or Else Stay On His Farm, So He Sued the Man Who Did the Job, L. O. Halverson.

A blow at Rock county's economical and picturesque system of road repairing was struck today when John O'Malley sued L. O. Halverson and the case came before Acting Municipal Judge Prichard. Both the plaintiff and the defendant are residents of the town of Johnston. In that part of the county, the same as in other portions the roads are repaired each year by the farmers. The scheme has been described as one "whereby they fixed a fair road by spoiling it." O'Malley's farm adjoins that of Mr. Halverson, the defendant, and both are situated midway between Johnston and Johnston Center. This spring it was decided that the road needed some repairs. Mr. Halverson hitched up the team and did what he considered a good job, but in that respect he and Neighbor O'Malley didn't agree.

Ran Too Much To Gutters. Mr. Halverson, Mr. O'Malley said, was too strong on ditches. He cut the gutters down deep and "coned" the earth up in the center of the road in the most improved manner. Then Mr. O'Malley came out and took a look at the work.

"Those gutters are too deep. How am I going to get out of my yard?" he asked.

The answer he received could not have been satisfactory, for, it was said, a discussion ensued. The talk did not bring the subject any nearer a settlement and the law was appealed to. Attorney William Smith appeared for the plaintiff, Mr. O'Malley, today, while John J. Cunningham conducted the case for the defendant, Mr. Halverson. Both principals told their story on the stand and then came a host of witnesses. Each had to be examined and cross-examined so the case dragged along and will scarcely be concluded today.

Many Witnesses on Hand. The case will be expensive, whether or not the work-out-your-poll-tax scheme is endorsed, for most of the able bodied men who make the homes on the road between the two villages were in court today. O'Malley was not alone in his statement that the road was bad. He had seven men as supporting witnesses, they being John Hamilton, O. Coggeswell, T. Sheridan, N. Mahr, J. Quigley, George Phelps and P. Joyce. In number the Halverson party was ahead of the O'Malley delegation for there were twelve witnesses—Richard Cory, Robert Morton, H. B. Johnson, John Johnson, W. Zuil, J. Haight, Volney Wood, David Zuil, Edward Carter, Rush Beardsley, Ezra Goodrich and Sylvester Morgan, all of whom reside in the vicinity or know whereof they speak by reason of personal visits and examinations.

## TWO CLAIMS AGAINST THE CITY Mr. and Mrs. Simon Gagan Want Pay for Allowed Injuries.

Notices of two claims against the city for damages for personal injury were served on City Clerk Badger at 3 o'clock this afternoon, both being signed by Simon Gagan, by his attorneys, J. L. Mahoney and John Cunningham.

The notices set forth that on the 15th day of May, 1895, Mr. Mary Gagan, while walking on the sidewalk on Pleasant street, in front of the residence of Miller E. Calkins, fell and was seriously injured, for which injury she now claims satisfaction, alleging that a board was missing in the walk. The allegation in Mr. Gagan's case was the same, they having been walking together at the time.

## HAD A RIB BROKEN BY A PAIR OF SHEARS

DR. E. D. ROBERTS PAINFULLY INJURED BY A FALL.

Wire Fence That He Was Climbing Gave Way Under His Weight and He Was Thrown Headlong, Forcing the Handle of the Scissors Against His Side.

When Dr. E. D. Roberts the veterinary surgeon fell from a fence while out training a hunting dog, the handles of the pair of scissors that he had in his vest pocket were forced against his side with force enough to fracture a rib and as the result the doctor is wearing a plaster bandage and suffering considerable pain.

When the doctor received the injury some days ago he thought nothing of it, although he had a hard fall. Later on, his side began to pain him and an examination it was found that the cartilage attaching this rib to the others had been broken. The fracture was at once dressed but it will be some time before the break is perfectly healed. The accident was rather a peculiar one. The doctor was climbing a barbed wire fence with his gun in his hand, when the staples that held the top wire in place, pulled out. The doctor's entire weight rested on this wire, and when it parted he was thrown headlong, forcing the handles of the scissors against his ribs. Fortunately he received no other injuries, but it is bad enough as it is.

May Not Be Able to Wrestle.

The injury may interfere materially with the wrestling match arranged between Dr. Roberts and Sheriff Appleby. The doctor now says that he will be able to go on with the match, as he is confident that the bone will heal before Friday. However, his friends say that it would be dangerous for him to exert himself before the bone is entirely healed and as strong as it was before the accident. Sheriff Appleby advises the doctor to go slow, a wrestling match cannot but be a severe trial of strength, and as the two men are bosom friends naturally neither desires to see the other hurt. Dr. Roberts was much disappointed in receiving the injury as he and the sheriff had been working together for a long time so as to give a scientific exhibition. In case the doctor is not able to go on without any danger to himself, the sheriff will wrestle any one that will enter on the one condition that his opponent is not a professional wrestler.

## AN ESSAY ON BONES.

A Ten-Year-Old Boy Writes Something You Don't Know, Perhaps.

Bones are the framework of the human body. If I had no bones in me I should not have so much shape as I have now and grandma would be glad, but I like to have motion. Bones give me motion because they are something hard for motion to cling to. If I had no bones, my brains, lungs, head, and larger blood vessels would be lying around in me sort of loose-like, and might get hurt, but now the bones get hurt, but not much lest it is a hard hit. If my bones were burned I should be all brittle, and you could crumble me up because all the animal would be out of me. If I was soaked in a kind of acid, I would be limber. Teacher showed us some bones that had been soaked. I could tie a knot in one. I had rather be soaked than burned. Some of my bones don't grow snug to my other bones like the branches of a tree do, and I'm glad they don't, for if they did I couldn't play leap-frog and other good games I know. The reason they don't grow that way is because they have joints. Joints are good things to have in bones. There are three kinds. The ball and socket joint is like my shoulder joint. Teacher showed it to us, only it was the thigh of a cow. One end was round and smooth and whitish, that is the ball end. The other end is the socket. It is saucer-like and fits itself. Another joint is the hinge joint, like my elbow. It swings back and forth, oiling itself, and never creaks like the school-room door does. The other joint ain't much of a joint. It's the skull and don't have no motion. All my bones put together in the right place make a skeleton. If I leave out some or put some in their wrong places it ain't no skeleton. Crippled and deformed people don't have no skeletons. Some animals have their skeleton on the outside. I'm glad I ain't them animals, for my skeleton like it is on the chart wouldn't look well on the outside.

## HE KISSED HER.

A Street Scene That Entertained the Crowd

There was a little comedy enacted at the corner of Ninth and Walnut streets shortly before 8 o'clock last evening which was hugely enjoyed by a small but select audience, says Philadelphia Record. A pretty young lady, with black hair and big brown eyes, had just left an adjacent restaurant with a bashful looking young man. The latter seemed eager to get away from his fair companion, but didn't seem to know just how to go about it. Several people who were waiting for a car were startled to hear the young woman exclaim:

"Well, you can't go until you kiss me!" Of course, everybody turned to look. The bashful looking young man grew very red in the face, but the dark-eyed maiden put up a pair of tempting red lips and waited for the osculatory salute. "Ah! kiss her!" remarked one of the bystanders. The bashful youth seemed undecided whether to take the proffered advice or to take to his heels.

He finally decided upon the former course, and stooped over the patient, upturned face. Then there was a sounding smack, a suppressed scream, and the young man disappeared hastily up Ninth street, while the young woman strolled leisurely out Walnut.

## Depew on the South.

The great opportunities of our country are in the south. The flood of immigration which has been pouring into this country for fifty years has sought the west, the north-west and the Pacific coast. In these southern states we find, as nowhere else in the country, the original stock which fought at Cowpens and King's mountain and Yorktown. The composite of all races which has developed the continent from the great lakes to the Pacific has set a standard of progress difficult to surpass. They had the advantage of virgin soil and uninhabited regions in which to locate and build their Commonwealths and found their cities. The intelligent patriotism of the southern people in the last quarter of a century has overcome difficulties which seemed insurmountable. A recognition of the assimilating and elevating power of education has created the new South with its hospitable invitation and boundless resources. The young men of the south have no call to tempt fortune in the crowded cities of the north or the east. At their doors and within their own states are their missions and their cares.—Chauncey M. Depew.

## A COMMON CAUSE OF SICKNESS

IN WARM WEATHER NOTHING SO DANGEROUS AS DECAYED FOODS.

Every one knows or ought to know that decayed foods are poisonous. Boards of Health seek to prevent their sale.

We now have in mind the results which follow the decay and decomposition of foods after they have been eaten, for unless digestion occurs within a reasonable time after our meals, decomposition sets in.

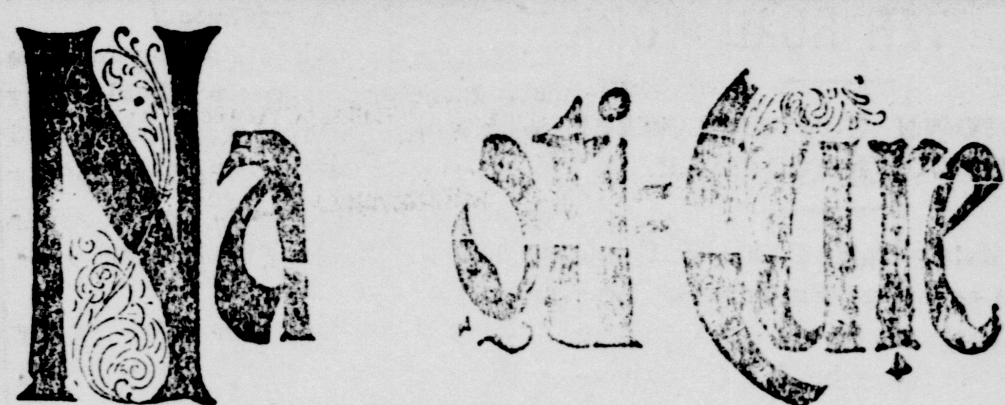

If dyspepsia will stop and consider for a moment some of the symptoms of their trouble, such as disagreeable breath, eructations of gas or bad taste in the mouth, they will understand that they all must come from decaying foods that ought properly to have been absorbed into the system.

Spots before the eyes, dizziness, sleeplessness, dyspeptic headaches are but a few of the effects following the absorption into the blood of poisons, developed from decomposing and undigested food that lies in the stomach.

It was a recognition of this important fact that caused the Mount Lebanon Shakers to devote so much of their time to the preparation of a remedy for dyspepsia, and nothing is more efficient than the Digestive Cordial which they have recently placed on the market.

The importance of their invention will be appreciated when we realize what a proportion of the community are victims of some form of stomach trouble. Thousands of pale, thin people have little inclination to eat, and what they do eat causes them pain and distress.

Its action is so prompt that relief frequently follows the very first dose. It restores the appetite and increases the weight. Plumpness and strength take the place of weakness and that care-worn expression which points out the dyspepsia in every community. The local druggists are now giving away interesting descriptive pamphlets.

## NARCOTI-CURE

### CURES THE TOBACCO HABIT IN 4 TO 10 DAYS OR MONEY REFUNDED.

Use All the Tobacco You Want Till Your "Craving" is Gone.

Narcoti-Cure is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in four to ten days. It leaves the patient in better health than before taking, and is warranted free from all injurious ingredients.

Narcoti-Cure is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

Narcoti-Cure is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not affected when taken according to directions.

Gentlemen:—Replying to yours of the 1st would say that I have used tobacco for 46 years and of late have consumed a 10 cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say use Narcoti-Cure.  
Yours truly, W. N. WAITE.

## A MONDAINE'S VIEW OF VENUS.

Men will rave about the Venus—  
Her of Melos—though her waist  
Would drive any woman crazy  
If she couldn't have it laced.

Such preposterous proportions  
May do well enough in art,  
But you really can't imagine  
Venus ever looking "smart."

Any French modiste will tell you  
That she never could be chic  
With that waist. I vow 'tis nearly,  
If not quite, a half yard thick.

Oh, of course she "goes" in marble,  
But she'd hardly be a belle  
In a '30 gown. You'd never  
Think her "swagger" now nor "swell."

A la mode she'd be a monster,  
Would the goddess, and it grieves  
Fin de siècle souls to fancy  
What she'd look like in big sleeves.

Venus never would be "in it,"  
And the men who chaperone  
O'er her form would, were she mortal,  
Be the first to criticize.

Were the goddess gowned in fashion  
Then, for all her wondrous face,  
They would find her figure "vulgar,"  
And declare she'd better lace.

## THE COST OF A TRAIN

At the time when the first open court of law was established in Russia a lady, dressed with the utmost elegance, was walking on the Moscow promenade, leaning upon her husband's arm and letting the long train of her rich dress sweep the dirt of the street.

A young officer, coming hastily from a side street, was so careless as to catch one of his spurs in the lady's train, and in an instant a great piece was torn out of the costly but frail material of the dress.

"I beg a thousand pardons, madame," said the officer, with a polite bow, and then was about passing on when he was detained by the lady's husband.

"You have insulted my wife."

"Nothing was farther from my intention, sir. Your wife's long dress is to blame for the accident, which I sincerely regret, and I beg you once more to receive my apologies for any carelessness on my part." Thereupon he attempted to hasten on.

"You shall not escape so," said the lady. "Today is the first time I have worn this dress, and it cost 200 rubles, which you must make good."

"My dear madame, I beg you not to detain me. I am obliged to go on duty at once. As to the 200 rubles, I really cannot help the length of your dress, yet I beg your pardon for not having been more cautious."

"You shall not stir, sir. That you are obliged to go on duty is nothing to us. My wife is right. The dress must be made good."

The officer's face grew pale. "You force me to break through the rules of the service, and I shall receive punishment."

"Pay the 200 rubles, and you are free," said the quickly changing color in the young man's face betrayed how inwardly disturbed he was, but stepping close up to them both he said, with apparent self command:

"You will renounce your claim when I tell you that I am a poor man, who has nothing to live on but his officer's pay, and the amount of that pay hardly reaches the sum of 200 rubles in a whole year. I can therefore make no amends for the misfortune except by again begging your pardon."

"Oh, anybody could say all that, but we'll see if it's true. We'll find out if you have nothing but your pay. I declare myself not satisfied with your excuses, and I demand my money," persisted the lady in the hard voice of a thoroughly unfeeling woman.

"That is true—you are right," the husband added, dutifully supporting her. "By good luck we have the open court now in session. Go with us before the judge, and he will decide the matter."

All protestations on the officer's part that he was poor, was expected on duty, and so forth, did not help matters. To avoid an open scene he went with them to the courtroom, where the gallery was densely packed with a crowd of people.

After waiting some time the lady had leave to bring her complaint.

"What have you to answer to this?" said the judge, turning to the officer, who seemed embarrassed and half in despair.

"On the whole very little. As the lateness of the hour and being required on duty compelled me to hurry I did not notice this lady's train, which was dragging on the ground. I caught one of my spurs in it and had the misfortune to tear her dress. Madame would not receive my excuses, but perhaps now she might find herself more disposed to forgiveness when I again declare that I committed this awkward blunder without any mischievous intention, and I earnestly beg that she will pardon me."

A murmur ran through the gallery, evidently from the people taking sides with the defendant, and against long trains in general and this lady in particular.

The judge called to order and asked, "Are you satisfied with the defendant's explanations?"

"Not at all satisfied. I demand 200 rubles for my torn dress."

"Defendant, will you pay this sum?"

"I would have paid it long before this had I been in a position to do so. Unfortunately I am poor. My pay as an officer is all that I have to live on."

"You hear, complainant, that the defendant is not able to pay the sum you demand of him. Do you still wish the complaint to stand?"

"I wish it to stand. The law shall give me my rights."

There ran through the rows of people a murmur of indignation that sounded like a rushing of water.

"Consider, complainant, the consequence of your demand. The defendant can be punished only through being deprived of his personal liberty, and by that you can obtain no satisfaction,

while to the defendant it might prove the greatest injury in his rank and position as an officer who is poor and dependent upon his pay. Do you still insist upon your complaint?"

"I still insist upon it."

The course the affair was taking seemed to have become painful to the lady's husband. He spoke with his wife urgently, but without effect. The judge was going on to further consideration of the case, when a loud voice was heard from the audience:

"I will place the 200 rubles at the service of the defendant!"

During the silence which followed the gentleman forced his way through the crowd and placed himself at the young officer's side.

"Sir, I am the Prince W—— and you will accept the loan of the 200 rubles in question."

"Prince, I am not worthy of your kindness, for I don't know if I shall ever be able to pay the loan," answered the officer in a voice tremulous with emotion.

"Take the money at all events. I can wait until you are able to return it."

Thereupon the prince held out two notes of 100 rubles each, and coming close to him whispered a few words very softly.

There was a sudden lighting up in the officer's face. He immediately took the two notes, and turning to the lady handed them to her with a polite bow.

"I hope, madame, you are satisfied."

With a malicious smile she reached out her hand for the money.

"Yes. Now I am satisfied."

With a scornful glance over the crowd of spectators she prepared to leave the room on her husband's arm.

"Stop, madame," said the officer, who had suddenly become like another man.

"What do you want?" said the lady, casting a look upon him as insulting as possible.

"I want my dress," he answered, with a slight but still perfectly polite bow.

"Give me your address and I will send it to you."

"Oh, no, my dear madame, I am in the habit of taking my purchases with me at once. Favor me with the dress immediately."

A shout of approbation came from the gallery.

"Order!" cried the judge.

"What an insane demand!" said the lady's husband. "My wife cannot understand herself here."

"I have nothing to do with you in this matter, sir, but only with the complainant. Be so good as to give me the dress immediately, madame. My affairs are urgent."

The pleasure of the audience at the expense of the lady increased with every word.

"Do not jest any more about it. I will hurry and send you the dress as soon as possible."

"I am not jesting. I demand from the representative of the law my own property, the dress," said the officer, raising his voice.

The judge, thus appealed to, decided promptly.

"The officer is right, madame. You are obliged to hand him over the dress on the spot."

"I can't undress myself here before all these people and go home without any dress on," said the young woman, with anger and tears.

"You should have thought of that sooner. Now you have no time to lose. Either give up the dress of your own accord, or—"

A nod that could not be misinterpreted brought to the lady's side two officers of justice who seemed about to take upon themselves the office of my lady's maid.

"Take your money back and leave me my dress!"

"Oh, no, madame! That dress is now worth more than 200 rubles to me."

"How much do you ask for it?"

"Two thousand rubles," said the officer firmly.

"I will pay the sum," the weeping lady's husband responded promptly. "I have here 500 rubles. Give me a pen and paper, and I will write an order upon my banker for the remaining 1,500."

After he had written the draft the worthy pair withdrew amid hisses from the audience.—From the French.

Swiss Swords, Spanish Pikes.

The prowess of the Swiss infantry is generally dated back to Morgarten (1315) or forward to Sempach (1386), but in reality it can be traced to a generation or two, some say a century and a half, before the former action. Be that as it may, Morgarten first announced the fame of the Swiss to Europe. Sempach raised it still higher, and finally the three terrible defeats of Charles the Bold at Granson, Morat and Nancy (1476-77) established it forever.

From that time the Swiss became the model of Europe. The German land-knechts adopted their weapons and tactics, and even for a time their name, while crafty little Louis XI took 6,000 of them into his pay and set them to teach his Frenchmen their work, for all Europe required to learn true soldiership, to obey orders and, above all, to preserve formation, which has been the secret of the Swiss victories. Before the fifteenth century was passed came Charles VIII's celebrated expedition to Italy and his entry into Rome, wherein the carriage and order of his Swiss mercenaries were the amazement of all beholders.

It was the French interference with Italian affairs that spread the new discipline abroad, for among the opponents of the most Christian king was a man of genius, the general of Ferdinand of Aragon, Gonsalvo of Cordova, known over all Europe as the Great Captain.

He, when the campaign was ended, in 1498, took the remodeling of the Spanish forces in hand and laid the foundation of the famous tercios that were soon to supplant the Swiss companies as the pattern for European infantry. It was in the Spanish tongue that the pike was first named the "queen of all weapons."

That Has Been Permeated by the Workers for Centuries.

Haile, the little German salt-making city, whose inhabitants are supposed to be descended from an early race of different blood from the modern Germans, has a curious fete of its own, which has been celebrated annually for many centuries. On that day the masters and the salt makers, clad in red mantles, follow to church the cake of the feast, borne aloft by a youth accompanied by his sweetheart. After the religious rites follow a banquet and a dance to the music of instruments specially devoted to the purpose. The fete originated in an incident that took place so long ago that the very date has been lost. A mill belonging to the commune was burned and the family of the miller was saved by the salt workers. When the mill was rebuilt the commune voted to the salt boilers in perpetuity an annual cake of 100 pounds to be blessed, carried in procession, and then eaten solemnly to the music of drums and fifes. The ceremony had been going on thus for generations when in 1376 there was a new fire in the city which destroyed the City Hall, but spared the salt works and the dwellings. Then the pious commune adopted a resolution thanking God for what he had spared, and declaring that hereafter the cake bearer and the salt masters and their men should make the procession clad not in black as formerly, but in tunics of ardent red, with plumes of the same color in their caps. The date of the fete was also changed from St. Peter's and St. Paul's day to St. John's day, the longest day in the year. Since 1736 this order has been faithfully observed. The cut of the tunic has varied somewhat with the fashion prevailing, but the style of Louis XV. predominates. Thus appear the carrier of the cake and his sweetheart, and thus is clad the halberdier. After the banquet, the men and maidens of honor, being those who in years before have carried the cake, decorate with red poppies the crowd that presses in the public square. Then, in the midst of a spot protected by barriers, the men and maids of honor execute not a cake walk, but a cake dance, a grave function in which one must neither speak nor smile. The dance is not complicated, but the music is of a special character, and this gives the whole a peculiar distinction. In the evening there is a dance of a gayer character at an inn. The waltz here begins really at 4 o'clock in the afternoon and is continued until dawn. The red habits are put away at the end of the fete, not to be brought out again for a year. They descend from father to son, and are preserved with the utmost care.

"I still insist upon it."

The course the affair was taking seemed to have become painful to the lady's husband. He spoke with his wife urgently, but without effect. The judge was going on to further consideration of the case, when a loud voice was heard from the audience:

"I will place the 200 rubles at the service of the defendant!"

During the silence which followed the gentleman forced his way through the crowd and placed himself at the young officer's side.

"Sir, I am the Prince W—— and you will accept the loan of the 200 rubles in question."

"Prince, I am not worthy of your kindness, for I don't know if I shall ever be able to pay the loan," answered the officer in a voice tremulous with emotion.

"Take the money at all events. I can wait until you are able to return it."

Thereupon the prince held out two notes of 100 rubles each, and coming close to him whispered a few words very softly.

There was a sudden lighting up in the officer's face. He immediately took the two notes, and turning to the lady handed them to her with a polite bow.

"I hope, madame, you are satisfied."

With a malicious smile she reached out her hand for the money.

"Yes. Now I am satisfied."

With a scornful glance over the crowd of spectators she prepared to leave the room on her husband's arm.

"Stop, madame," said the officer, who had suddenly become like another man.

"What do you want?" said the lady, casting a look upon him as insulting as possible.

"I want my dress," he answered, with a slight but still perfectly polite bow.

"Give me your address and I will send it to you."

"Oh, no, my dear madame, I am in the habit of taking my purchases with me at once. Favor me with the dress immediately."

A shout of approbation came from the gallery.

"Order!" cried the judge.

"What an insane demand!" said the lady's husband. "My wife cannot understand herself here."

"I have nothing to do with you in this matter, sir, but only with the complainant. Be so good as to give me the dress immediately, madame. My affairs are urgent."

The pleasure of the audience at the expense of the lady increased with every word.

"Do not jest any more about it. I will hurry and send you the dress as soon as possible."

"I am not jesting. I demand from the representative of the law my own property, the dress," said the officer, raising his voice.

The judge, thus appealed to, decided promptly.

"The officer is right, madame. You are obliged to hand him over the dress on the spot."

"I can't undress myself here before all these people and go home without any dress on," said the young woman, with anger and tears.

"You should have thought of that sooner. Now you have no time to lose. Either give up the dress of your own accord, or—"

A nod that could not be misinterpreted brought to the lady's side two officers of justice who seemed about to take upon themselves the office of my lady's maid.

"Take your money back and leave me my dress!"

"Oh, no, madame! That dress is now worth more than 200 rubles to me."

"How much do you ask for it?"

"Two thousand rubles," said the officer firmly.

"I will pay the sum," the weeping lady's husband responded promptly. "I have here 500 rubles. Give me a pen and paper, and I will write an order upon my banker for the remaining 1,500."

The Future.

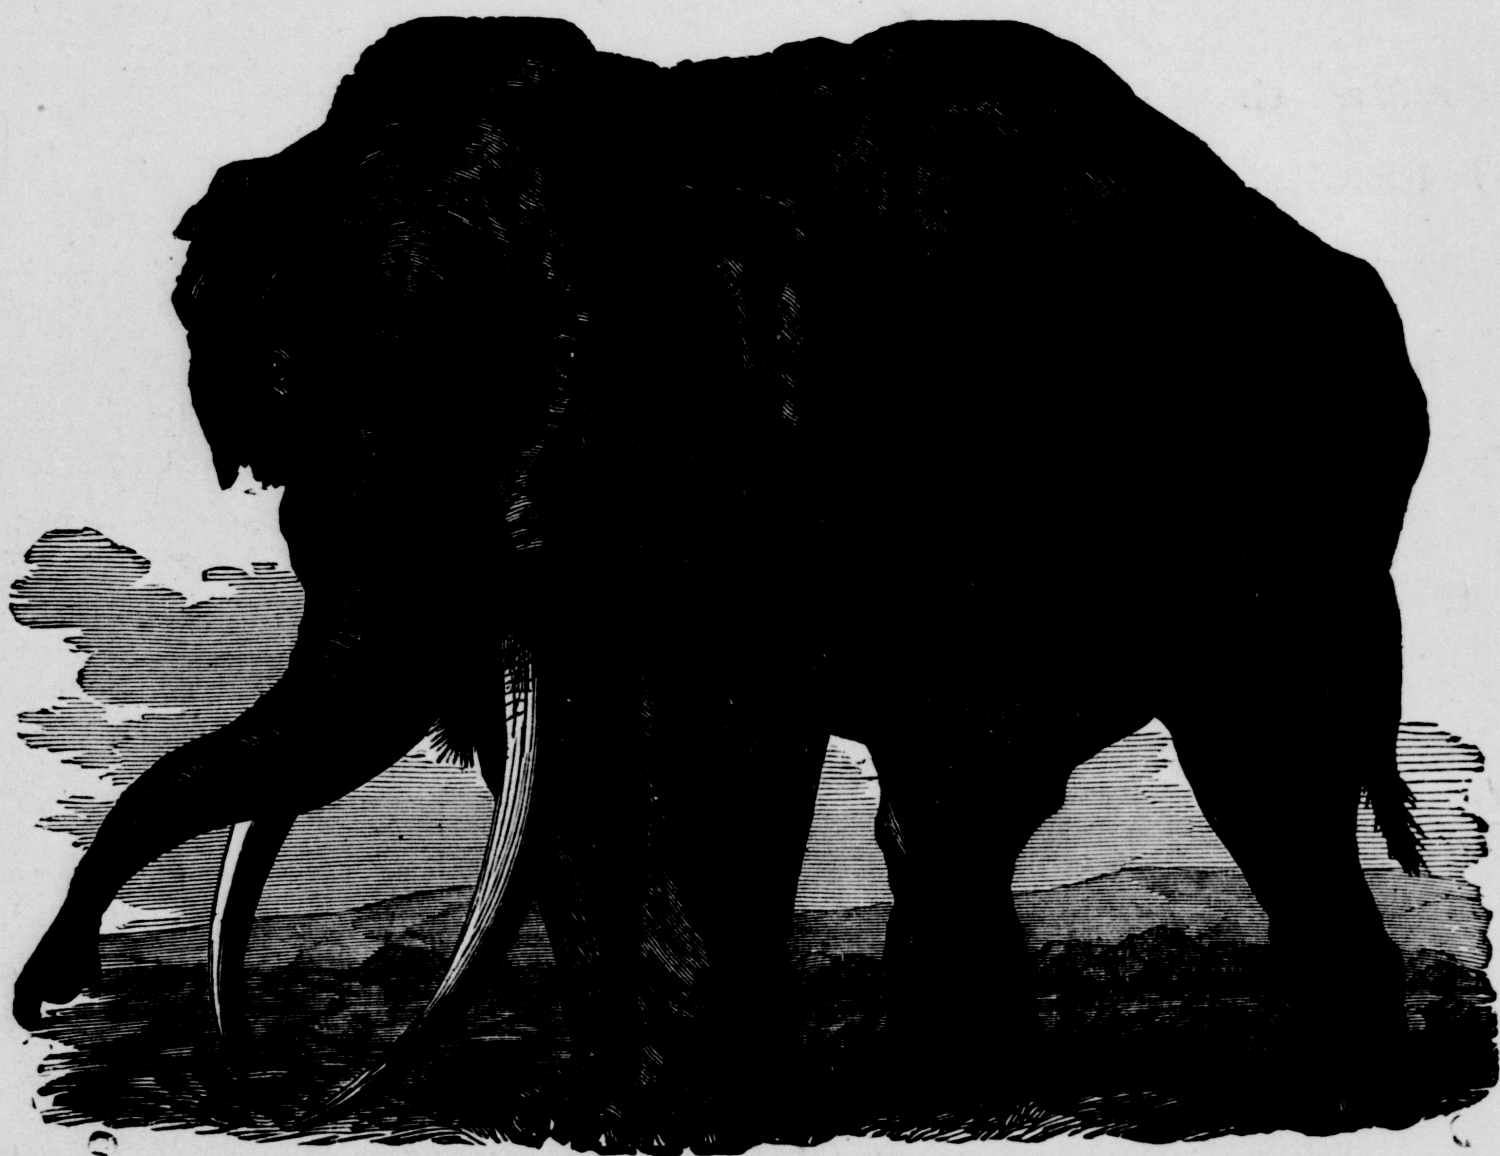

We can as little argue respecting the laws of the future state from those which give us our present, as the Esquimaux could argue respecting tropical productions from the sterility of his own ice-bound, snow-covered coasts. That there is a future, that we shall live in it, and that God will be our God then as now, these are the great facts of transcendent importance; that there will be love and friendship and fellowship and mutual recognitions is indicated by many passages in scripture and is not contradicted by Christ's teaching.

One of the Commandments Ruined.

Dr. S. A. Binion, an Egyptologist, while visiting the Boston public library discovered that there is a commandment missing from the decalogue as inscribed on the walls. The Ten Commandments are supposed to be inscribed in Hebrew characters on the tables of stone which the great lawgiver holds, but Dr. Binion discovered that one of the letters in the commandment, "Thou shalt not steal," has been repeated and the proper character omitted. The result was that there is no meaning to the commandment as inscribed, and there is little doubt that, now the attention of the library authorities has been called to the matter,
